Acturis team up with iBMACS for broker compliance software

Marsh Corporate Consulting is delighted to announce a new partnership with Acturis to offer their users access to iBMACS, the only web-based broker compliance software system, at an unbeatable price.

iBMACS has been developed specifically for the insurance broker market to enable brokers to achieve and maintain essential FCA compliance. Covering more than 20 key areas, it provides brokers with a one-stop shop for all their compliance needs. To ensure ongoing compliance, the system is regularly updated to reflect changes made by the regulator.

The system is easy to use and provides clear guidance on compliance status by flagging records as red, amber or green and highlighting where action needs to be taken.

Key areas where iBMACS can help brokers include:

- Creating and maintaining compliance records
- A full audit trail for each record
- Graphs which quickly show the state of compliance within the business
- Historical compliance on a monthly basis and identifying trends through broker profiling
- Snapshot compliance report giving full details of the current status of every compliance record created.

Kieran Marsh, Chief Executive of Marsh Corporate Consulting, commented “The partnership with Acturis is a great endorsement for iBMACS and will really help their users ensure their compliance systems are beyond refute. I’ve already met with many Acturis members and their feedback has been overwhelmingly positive – almost without exception they recognise how they can use iBMACS to transform how they tackle compliance on an ongoing basis.”

Theo Duchon, Co-CEO of Acturis adds, “We are always looking to add value to our user community, and the area of compliance is obviously very important to brokers. Anything we can do to help our users in this area is beneficial and iBMACS offers a good proposition in this regard.”

For brokers interested in finding out more they can visit www.ibmacs.com or contact the Marsh Corporate Consulting team by phone on 01423 799003 or email ibmacs@mccltd.co.uk.
